

# Château Prieuré Marquet

The Chateau Prieuré Marquet is located north of Bordeaux, near Libourne and Saint-Emilion.  
You are at the heart of the Bordeaux countryside.  
This part of the vineyard offers a unique landscape.  
The area is beautiful in every season.  
The patchwork of vineyards spread over the hillsides; the charming villages reveal their stylish wine houses.

Located on the heights of a hill, the Castle dominates the land. From its large terrace, the eye embraces a splendid landscape of vineyards and forests.

It is at the end of a long gravel pathway that visitors discover the Chateau Prieuré Marquet. An elegant Bordeaux stone construction called Charterhouse, characterized by its four main buildings arranged in a square around a large grassy courtyard.

When Bernard Canonne acquired the domain in 2014 he made 2 major decisions: He began first a radical modernization of the wine cellar and the wine storehouse, to ensure the future of the vineyard and the affirmation of the brand in the most demanding markets. The objective is to restore its credentials to wines which enjoyed superb vintages.

Then he chose to open the Prieuré Marquet castle to International visitors seeking exception & elegance.

He led every step of this ambitious project. He wanted a respectful renovation of place spirit. Under his leadership, the architect Guillaume Aubel has successfully combining classic and contemporary design without losing the romanticism of the property.

Precious wood flooring, massive beams and old stones happily welcome the bold gesture of great designers (Philippe Stark, Gio Ponti, Isamu Noguchi, Ferruccio Laviani, Christian Lacroix, Marcel Wanders...). Pleasantly bright at any time of day, the castle waiting for the night to reveal the originality of its internal lighting.

The Chateau Prieuré Marquet has a soul that is now embodied in a warm setting where every guest can enjoy a bit of this wonderful “French Art de Vivre”

Our Exception rooms are spacious, elegant and bright. Contemporary designer (Lacroix, Stark, Ferruccio Laviani...) pieces subtly marry weathered wood or period furniture. Each room has its own tone, his own balance between modernity and ancient tradition, between the sketch design and warmth of the old stones ...

Our Prestige rooms are a little more intimate than the large Exception rooms, but they have the same comfort. Each room is a small universe, harmonious, perfectly unique in its layout and decor
